NEBRASKA CARE COLLECTIVE

Connecting People. Strengthening Communities.

What is the Nebraska Care Collective?

The Nebraska Care Collective is a partnership of healthcare providers and community organizations working together to better support individuals and families across Nebraska. With your permission, participating organizations can securely share information about services and support you may be receiving. This helps your care team better understand your needs and connect you with the right resources.

Coordinated Care and Support

When organizations work together, it can be easier to get the support you need. Information about your social needs and the services you receive may be shared through Nebraska Care Collective so organizations can coordinate support and reduce duplicate questions. This helps healthcare providers and community organizations understand what resources are already in place and identify additional assistance that may benefit you. Medical information and health records are not shared with community organizations through Nebraska Care Collective.

Needs Can be Identified Sooner

The Nebraska Care Collective can help connect you with resources related to:

- Food and Nutrition
- Housing
- Transportation
- Utility Assistance
- Childcare
- Financial Support
- Other social needs that affect your health and well-being

You Stay in Control

Your privacy matters. Information is shared only with your permission and only among organizations involved in supporting you. Participation is your choice. Please note that your medical information and records are not shared with community organizations.

What to Expect

01 Step 1: A conversation

A member of your care team may explain the Nebraska Care Collective and answer any questions you have.

02 Step 2: Your choice

You decide whether you want to participate. Saying yes is not required to receive care or services.

03 Step 3: Coordinated support

If you choose to participate, organizations can work together more effectively to help meet your needs.

04 Step 4: Ongoing assistance

Your care team can help connect you with community resources and follow up on referrals as needed.

Looking for additional assistance?

CommunityRelay.com connects individuals and families with local programs and services that can help address common social needs including food, affordable housing, transportation or help paying bills.
